OFFICE OF THE SECRETARY

Sir -

Thought you might be interested in
this schedule of cable Rates - note how
the increase is added to Satellite. The
schedule of sewer rates is far too high.
This cable as many others has a
monopoly on rates.

To bad a national access to Satellite
can not be offered without the awful
"Community Trashing discs".

Dear Adelphia Customer:

Effective with your January bill, Adelphia will be making some changes in your cable rates and billing. Please read on for details.

Over the past year, Adelphia has experienced increases in costs for insurance, construction, vehicle maintenance, and utilities. We have also experienced increases in programming costs associated with our satellite-delivered channels. Effective with your January bill, there will be a \$1.50/month increase in our rate for Satellite Service. This change will result in an increase in your Economy Service or Standard Service rate of \$1.50/month. All Premium Packages (consisting of Standard Service and the Premium channels of your choice) will correspondingly increase by \$1.50/month. Please note that our rate for Broadcast Service will not change.

The following rates will change on your January bill:

In accordance with the provisions of Section 824-a of New York State's Executive Law, those customers currently taking any of our services are entitled to certain rights due to changes in our rates.
